

At the Taipei Relic Show, Taiwan on March 29, 2008, a relic of Lama Tsong Khapa spontaneously began to glow, later other relics in the collection began to glow. When the Relics went to Seoul, Korea a few days later, some of the Relics continued to glow.

This strange and wonderful phenomenon was reported to Lama Zopa Rinpoche, the Spiritual Director of the Maitreya Project and the Relic Tour. Rinpoche sent this message and asked us to share it with those who come to see the holy relics.

Lama Zopa Rinpoche's Message to the Relic Tour

"Light beams emitting from the holy relics means the enlightened beings are communicating with those of us who are able to see.

"So it will be very powerful if you fortunate ones coming to receive blessings from the relics make strong requests to actualise the complete path to enlightenment, especially loving-kindness, compassion, bodhicitta, and clear light from the highest tantra, secret Vajrayana, and the resultant two kayas in this very lifetime, without delaying a second.

"Then pray: 'May I liberate numberless suffering beings from the oceans of samsaric sufferings and the causes of suffering – delusion and karma – and enlighten them as quickly as possible.'

"You can also pray to generate loving-kindness, compassion and bodhicitta in the hearts of all the leaders of the world and in the hearts of all religious people – not only Buddhists – and then in the hearts of the rest of all the numberless beings. May they have perfect peace and happiness in this world – no war, famine, diseases, fighting, quarrels, poverty, all of these external living conditions.

"May they avoid the inner suffering of being without Dharma in the heart: the complete path which ceases all the suffering and its causes, delusion and karma; the complete path to enlightenment which ceases the subtle negative imprints, which are obscuring and causing us to hallucinate.

"Thank you. What amazing good luck you have."
